IEP Clinic

Thursday December 10, 2026
10am-12:30pm

This clinic provides targeted individualized assistance to help families better understand their child's IEP. The clinic provides parents with the knowledge and confidence to actively participate in IEP meetings and ensure their child's educational needs are being met. We discuss the IEP Process and their rights under the Individuals with Disabilities Education Act (IDEA) by strengthening the ability of families to engage in collaborative decision-making with educators and service providers. Famiies are encouraged to bring their child's IEP and educational documents.

Location
Republic Branch Library
921 North Lindsey Avenue, Oak Room
Republic, MO 65738
